Questions 27-30

Science affects the average man and woman in two ways. He or she benefits by its applications, driving in a motorcar or omnibus instead of a horse-drawn vehicle, being treated for diseases by a doctor or surgeon rather than a witch, and being killed with an automatic pistol or a shell in place of a dagger or battle-axe. It also affects his or her opinions, almost everyone believes that the earth is round, and the heavens nearly empty, instead of being solid. And we are beginning to believe in our animal ancestry and the possibility of vast improvements in human nature by biological methods.
